## Overview

Application to connect people , make your own business team , be a contributor towards the poor and ultimately earn from the application.

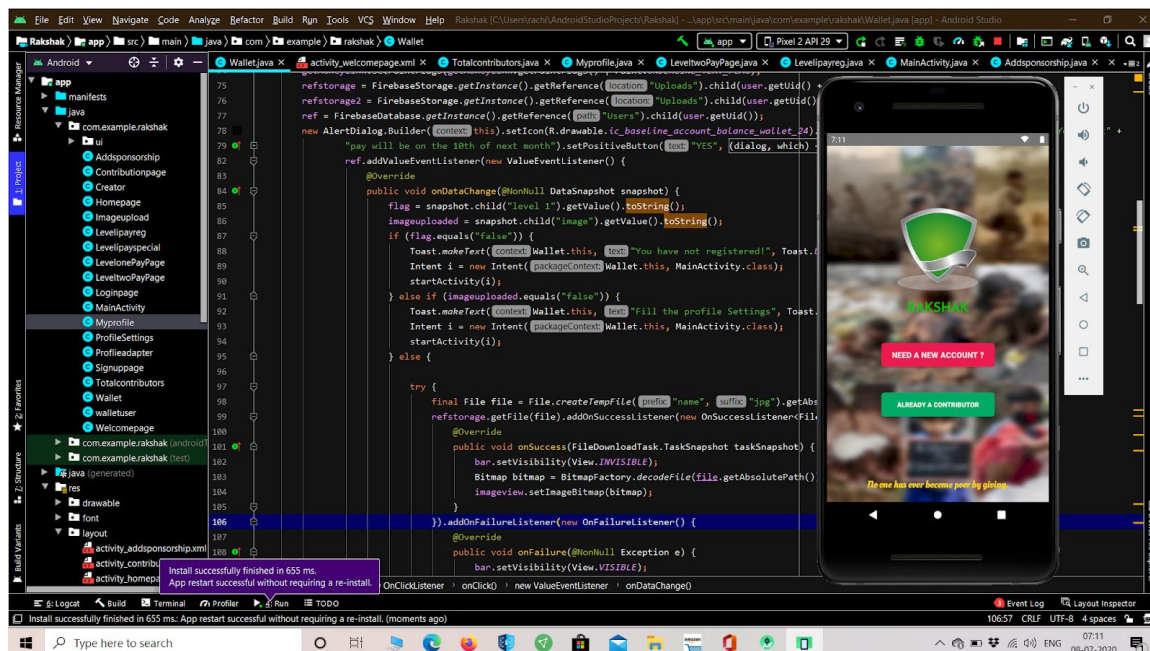

## Goals

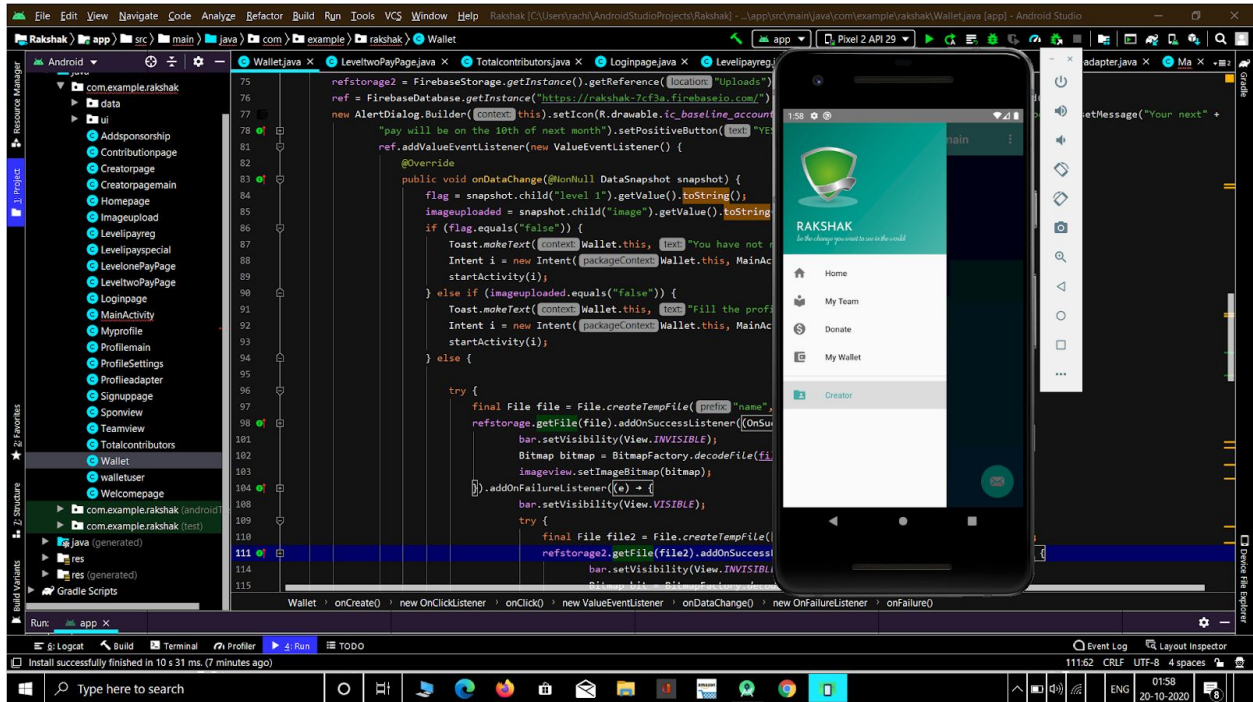

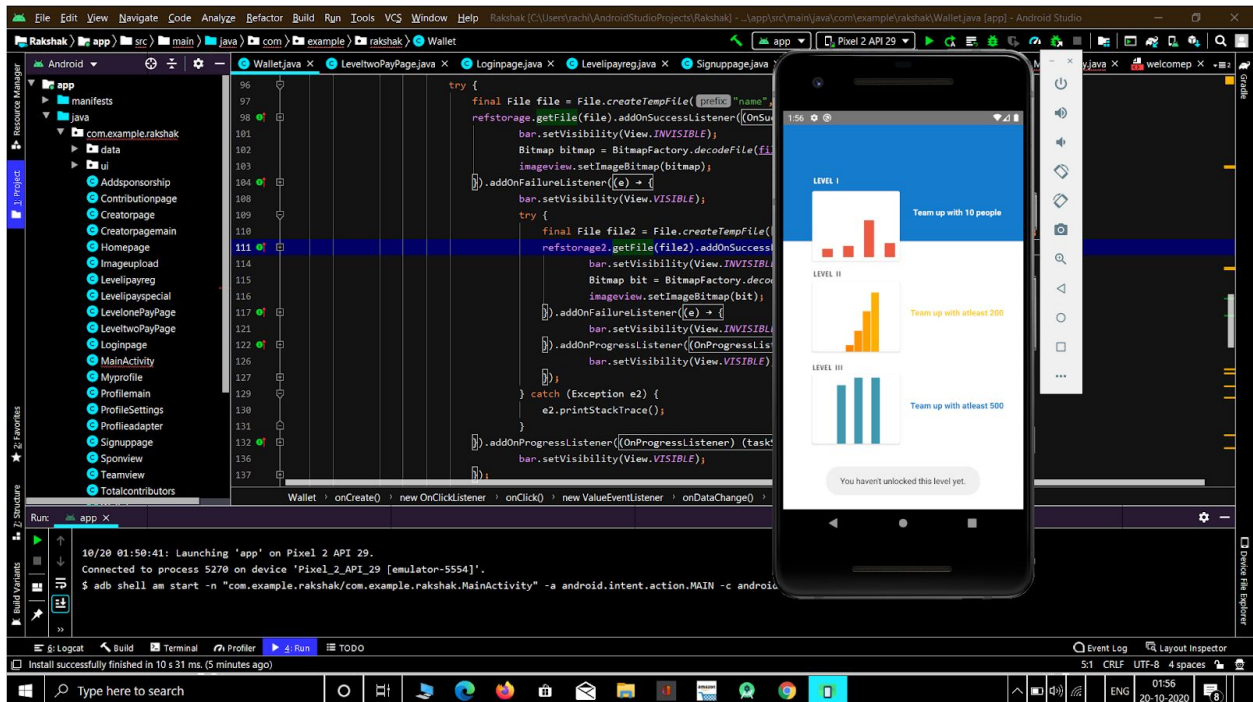

1. To contribute to the society in this pandemic
2. To reduce Unemployment , as it has taken a major peak .

## Specifications

After signing in , you have to register for **Rs. 100** and refer to at least three people for your payment to start in the **first level** . The rakshak community has three levels , once you have a team of 25 , you independently unlock **level II** where you have to refer at least 50 people as a sponsorship ie. from your **sponsorship id/referrals** . Once your team size increases to 500. You Unlock level III where the referrals increase to 100 and 1000 people to attain a **level III** certification. After each joining in your team your payment , monetary income generated **30 %** will be given to the poor communities and the rest to your bank account via netbanking , gpay .
